

CERTIFICATE OF GUARANTEE GEARBOX

This certificate of guarantee is for the Gearbox we have hand-built for you. The guarantee covers the *Gearbox* for a period of one or two years from delivery.

1. We guarantee the highest quality of workmanship on your Gearbox & the very best available materials used within the rebuilding. We remind you that every gearbox is more than 25 years old so whilst problems are rare, they can happen. Building brand new is no longer possible or affordable to most customers.

2. The guarantee for a period of 1 or 2 years is subject to *our* first service at 1000kms and a thorough check over of not only the gearbox, but also the clutch, hydraulics and gear shift mechanisms. This service is chargeable & forms part of this guarantee. Faults found must be repaired & checked again in order to keep the guarantee valid.

3. The guarantee time is based on gearbox codes. Red & Blue. A red box has been reconditioned & has a 1 year guarantee, a blue box has been reconditioned & modified & carries 2 years.

4. Any gearbox that is used for towing, used for racing or trials or any other *out of the ordinary use* is NOT covered under this guarantee. This includes the use of Non Original Engines, (Audi-Golf-Subaru-Ford etc). In the event of a claim on the guarantee, the customer is required to give full details of the Engine driving the gearbox.

5. Royal Blue gearboxes however *are special build* & the guarantee DOES cover modifications to the Engine, detailed on the back of this certificate. The same applies to Sycro Gearboxes too.

6. Damage caused by wrong usage, (4) is not covered. Also not covered is damage caused to the gearbox due to poor bearings/clutch mounting/clutch release mechanism in the Clutch/Engine area. This is particularly prevalent when fitting a gearbox to a Diesel Engine.

7. Any workshop/person who builds out & builds in a gearbox is totally responsible for any damage caused to the new gearbox.

8. Should any issue arise with the gearbox within the guarantee & are unrelated to clause 6 & 7, Dream n Drive will repair/replace the gearbox free of charge. This *expressly excludes* any costs for building out and building back in again or additional materials used. These are down to the customer irrespective of any guarantee claim.

9. Dream n Drive are NOT liable to any expenses whatsoever, be it recovery costs, transport or alternative transport, accommodation costs etc., due to a guarantee claim. Dream n Drive guarantee only the gearbox in all cases. All extra costs are the responsibility to the owner.

10. By signing it, is agreed upon Unconditionally.
