

CERTIFICATE OF GUARANTEE WBX/AC ENGINES

This certificate of guarantee is for the Boxer Engine we have hand-built for you. The guarantee covers the *Engine only* for a period of two years from delivery, namely the Engine Block, Pistons, Cylinder Heads, Valves & Flywheel. Everything within the case is guaranteed.

1. We guarantee the highest quality of workmanship on the Engine & the very best available materials used within the rebuilding.
2. The guarantee for a period of 2 years is subject to *our* first service at 1000kms & the next two *yearly* services, or @ 6,000kms which ever comes first. These services are payable & form part of this guarantee.
3. VWT3s running on LPG do not get any sort of guarantee on the cylinder heads, valves, seals or gaskets. Owners run at their own risks when using this fuel. Extra precautions & fuel additives HAVE to be added to the engine. Dream n Drive do NOT recommend using this fuel.
4. In the event of a claim over the Engine, Dream n Drive will be informed & an inspection of the problem/causes checked. Results are by report.
5. All engines are over 25 years old as are the vehicles they are fitted into. Dream n Drive does not accept *any* costs involved in building in or building out of Engines, time or materials associated, even in the event of a guarantee issue. This is an owner risk factor & is agreed in advance by all parties concerned. Signing this certificate

6. Damage caused by wrong usage, overheating, wrong fuel, poor ignition timing, fuel feeding, neglect, in particular relating to oil and the cooling systems, are not guaranteed at all. In any claim, Dream n Drive will provide a full report with photographs showing the cause of failure.

From these findings, it will be decided whether Dream n Drive is responsible for the failure or not. If responsible, we will repair the engine free of charge.

7. Any workshop/person who builds out & builds in an Engine is totally responsible for any failures in the electrical systems, the fuel systems &/or the cooling systems. Should any damage from these items be the cause of engine failure, this guarantee is totally null & void.

8. Should any issue arise with the Engine within the two years guarantee & are unrelated to clause 6 & 7, Dream n Drive will repair/replace the engine itself. However, clause 5 prevails.

9. Further to clause 5, Dream n Drive are NOT liable to any expenses whatsoever, be it recovery costs, transport or alternative transport, accommodation costs etc., due to a guarantee claim. Dream n Drive guarantee only engine in all cases. All extra costs are the responsibility to the owner.

10. A full detailed explanation of each clause is on the reverse side of this certificate and by signing it, is agreed upon Unconditionally.
